HAMILTON

HAMILTON COMMERCIAL INTERIOR SOLUTIONS

FLEXIBLE

Versatile, durable, high-quality components designed to be recombined or restructured for multiple uses within new safety requirements.

SAFE

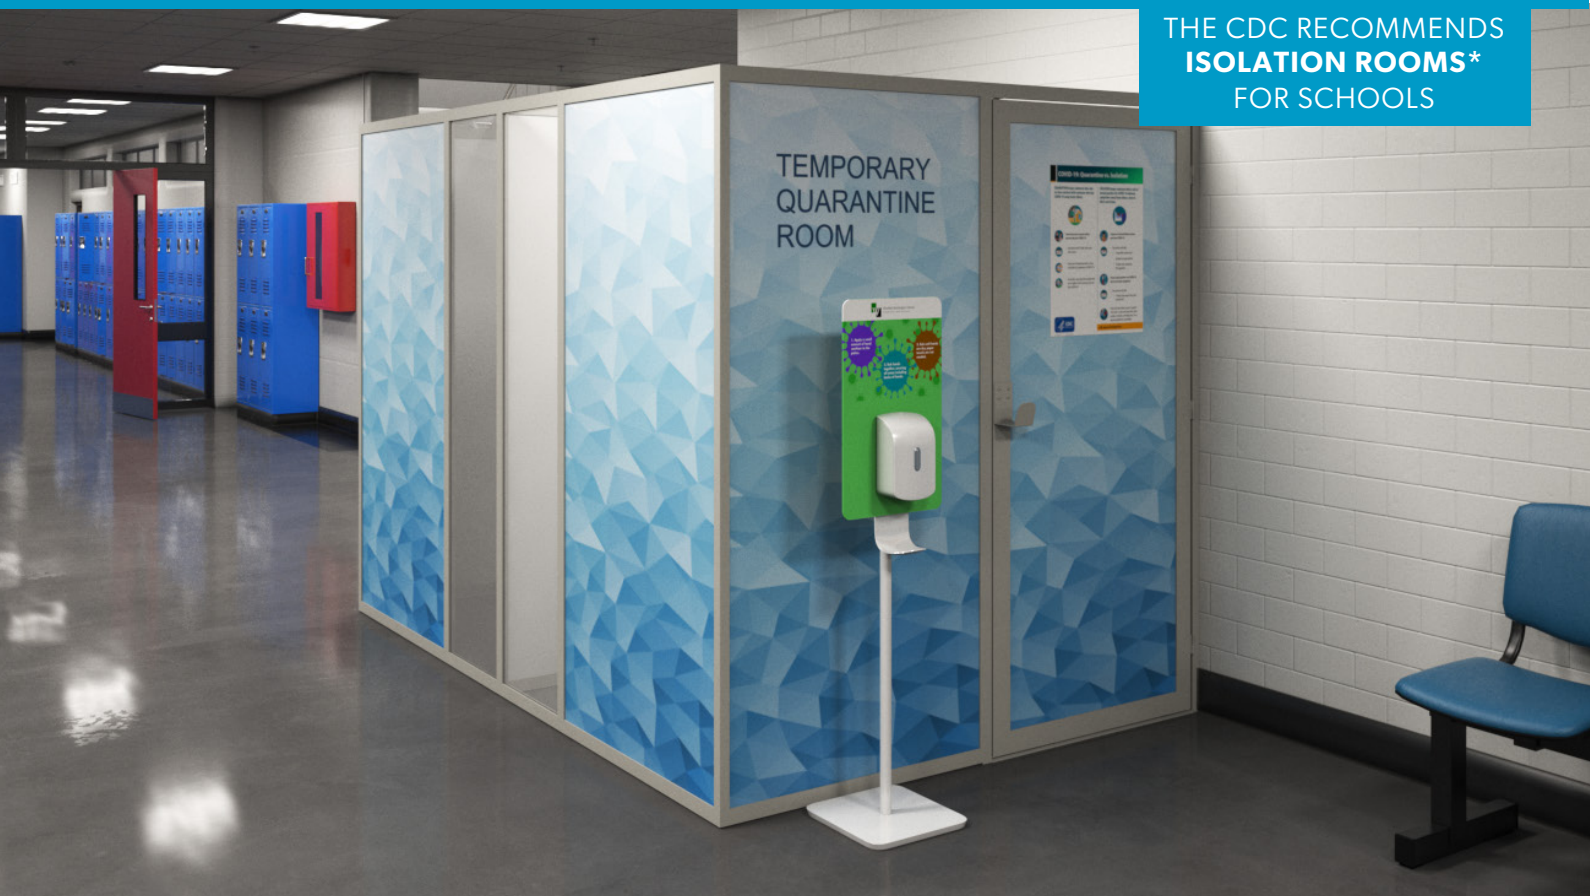

Easy-to-clean and sanitize so you can maintain a safe environment for your administrators, teachers, and students.

EASY TO IMPLEMENT

At-cost solutions can be implemented quickly and are perfectly suited for any type of education environment—from the classroom to the cafeteria.

Functional and effective protective solutions.

THE CDC RECOMMENDS
ISOLATION ROOMS*
FOR SCHOOLS

TQR™ (Temporary Quarantine Room)

Per CDC guidelines* for “isolation rooms” —we offer TQR solutions available in multiple configurations customized to your needs and designed for safety and comfort. Ability to repurpose for future use.

***CDC’s Considerations for K-12 Schools: Readiness and Planning Tool**

“Work with school administrators, nurses, and other healthcare providers to identify an isolation room or area to separate anyone who has COVID-19 symptoms or tests positive but does not have symptoms.”

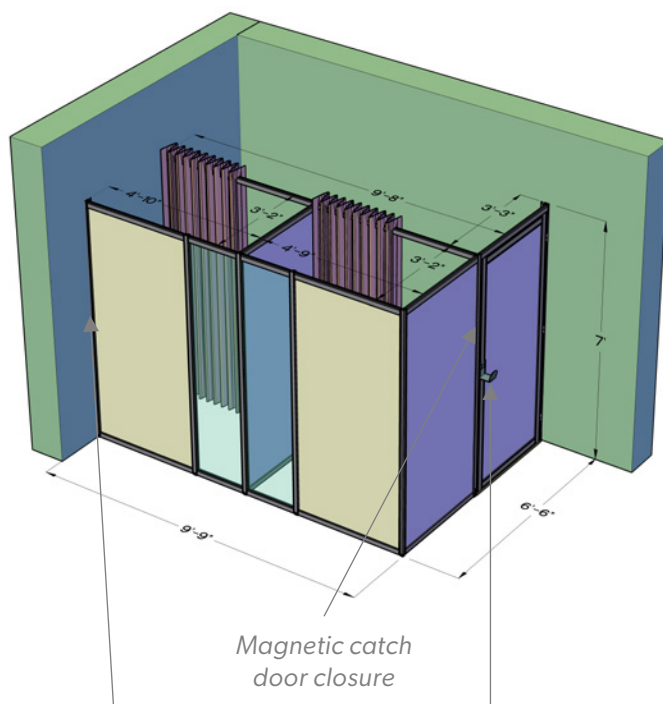

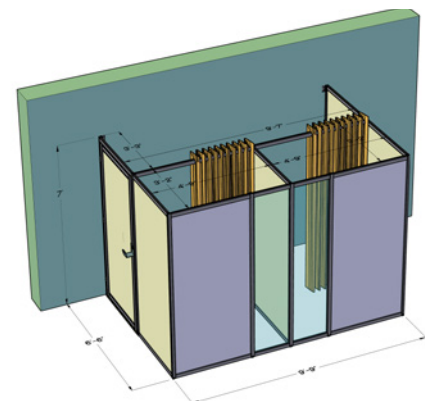

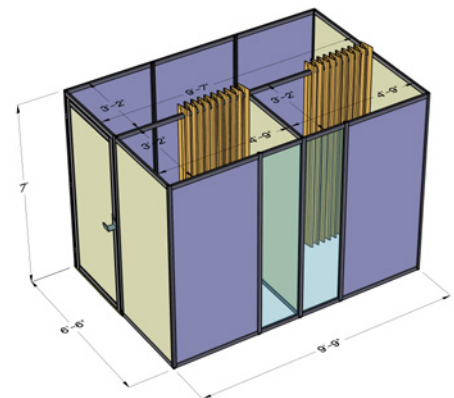

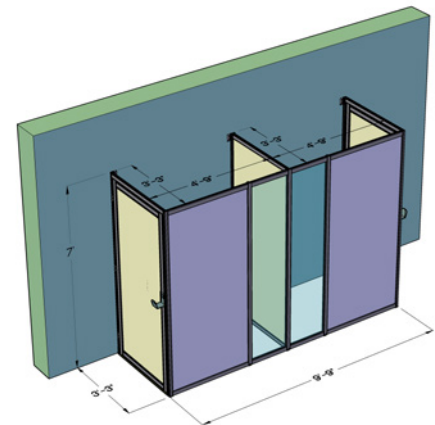

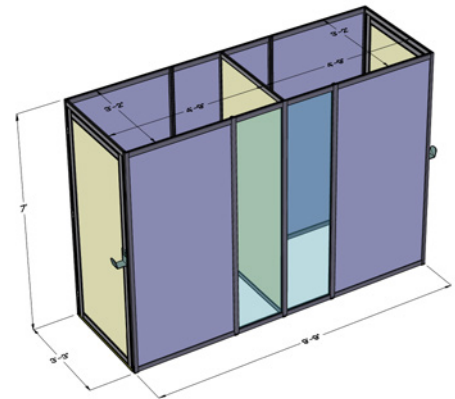

TQR™: Quoted upon request

*Alternative options, custom sizes and features available.
Installation labor and delivery quoted upon request.*

Made in the **USA** 

Benefits of TQR™ (Temporary Quarantine Room)

- Aligned with CDC guidelines.
- Five configurations to choose from and ability to create custom sizes.
- Easy to clean and sanitize.
- Portable and modular to adapt to any environment.
- Save space with budget-friendly solutions that leverage existing walls or corner areas.
- Can be co-located close to school health facility (e.g. nurse's station).
- Easily incorporate kid-friendly signage to put students at ease.
- Made in the USA.

THE CDC RECOMMENDS
PHYSICAL BARRIERS*
FOR SCHOOLS

Classroom – Portable Barriers

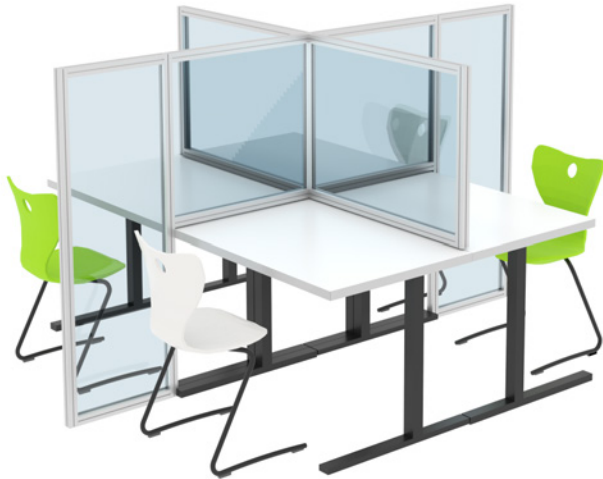

These barriers can either stay in the classroom or be assigned to students who carry them from class to class. Made from clear, impact-resistant polycarbonate and folds into a single plane for easy carrying using the built-in handle.

***CDC's Considerations for K-12 Schools: Readiness and Planning Tool**

"Install physical barriers, such as sneeze guards and partitions, particularly in areas where it is difficult to remain at least 6 feet apart (e.g. reception desks)."

Pricing available upon request.
Available in small and large sizes.
Installation labor and delivery quoted upon request.

Classroom – Modular Barriers

De-densify classrooms and studying spaces per CDC guidelines with solutions designed use space efficiently. Easily pivot from lecture teaching to group work.

PHYSICAL BARRIERS*
FOR SCHOOLS

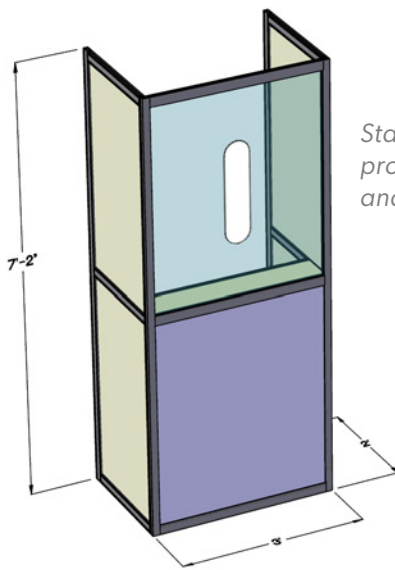

***CDC's Considerations for K-12 Schools: Readiness and Planning Tool**

"Install physical barriers, such as sneeze guards and partitions, particularly in areas where it is difficult to remain at least 6 feet apart (e.g. reception desks)."

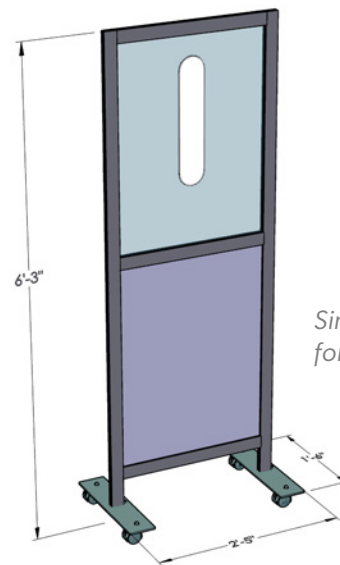

Pricing available upon request.
Custom sizes and features available.
Installation labor and delivery quoted upon request.

Temperature Taker Barriers

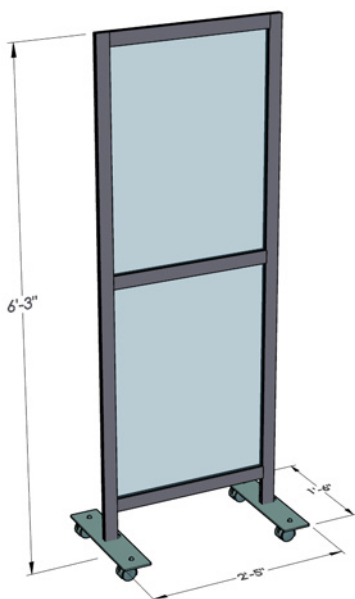

Many schools are implementing temperature checks prior to entry. Most devices need to be held near the individual and it's important to have separation to protect the tester. Two models available.

Stationary unit with protection in the front and sides

Single screen on wheels for easy mobility

Teacher Hygiene Barriers

With students facing forward, an extra barrier of protection helps to keep teachers safer. These barriers are on wheels and can easily move where teachers move giving them and students more peace of mind against transmission.

*Pricing available upon request.
Custom sizes and features available.
Installation labor and delivery quoted upon request.*

Additional Hygiene Barriers Available

Frameless countertop

Passthrough countertop

Low profile countertop

Weighted base version
